Barney Brown: Among the many blessings that Barney counts in his lifetime is being born on a farm & having no other children to play with for the first 6 years. He feels blessed to have experienced life on hundreds of acres of grown-over cotton fields, glacial lakes, an ocean bound New England island, a redwood forest & fog shrouded fields. Barney has been further blessed to spend 6 years sailing the oceans of America's west & east coasts. Currently he counts his blessings of living on Heartstone's magic land & to have the gifts of garden, field, trees, rivers & mountains. From this distillation & a lifetime of poetry, art, writing, music & meditation, a few insights to eternal questions, that have been asked by humankind ever since the Enlightenment, will be offered.

The Golden Living Prayer Labyrinth

Sunday April 30th 10 am

YES!! Even Geometric form evolves! Our Grace Walk has evolved into *The Grace Walk ...a Living Prayer Labyrinth!!* In 2012 Antonia was given the vision for the 'next evolution' of the creation field with the understanding it would be in the future. Late in 2020 she received the message 'It's Time' & the 2nd section of the center walkway has been set in motion creating the Golden Cross geometry. **Come find out why it is being called *The Living Prayer Labyrinth!***

Inspired by the family of 7 geometries called the *Geometric Technologies of Love ...the Unified Field System of LOVE for the next octave of human*, this modern-day hilltop labyrinth has been a 18 year project of love. It covers approximately an acre of ground with stunning 360 degree views of both the Blue Ridge Mountains, the Alleghenies & nearly 8 counties. Beautiful original sculptures throughout the interior draw visitors to stop, look, sense, sit, meditate, quietly commune.

The center design is interwoven golden ratio infinities. This is not only a beautiful labyrinth in a gorgeous setting, but also a powerhouse of amazing energy. The two outer rings have crimson & saffron flags that fly 12 feet high on days of ceremony. Individuals & groups have felt drawn to visit the farm to walk the creative one-of-a-kind design.

Antonia Albano - has facilitated workshops & seminars in expanding human consciousness since 1991. She is the founder of the World Love Project, Virginia's annual Celebration of Love, the Healing Resonance Council™ & the creator of The Grace Walk labyrinth. From 2004 to present she has brought forth new living systems called the Geometric Technologies of Love...The Unified Field System of LOVE for the next octave of human. Antonia resides in the Shenandoah Valley of Virginia.
